Frequently Asked Questions - FAQs

1. How long will it take?

Other Family migration cases are lower priority than the applications of close family members (such as Child and Partner visas), however we try to decide the applications as quickly as possible – current average processing time is 12 months. However, each application presents different issues that can vary the processing time. Some factors that may delay processing include:

- an incomplete application and requested documents not being submitted promptly
- additional checks becoming necessary, including additional interviews
- medical issues, particularly tuberculosis
- past visa malpractice by the visa applicant or their family members.

2. How can you assist the efficient processing of your application?

Submit a complete application and include all supporting documents.

Provide an e-mail address. This enables us to communicate with you quickly and efficiently.

It can sometimes speed up processing if we can communicate with a third party (such as the sponsor) directly regarding the visa application. However, the disclosure of information to parties other than the visa applicant is governed by the Privacy Act and information about the application can only be provided if you give written consent. If you wish us to communicate with a third party, you should provide your written consent for us to do so.
